DRIE TEKSTEN VAN TOONEELSTUKKEN

UIT DE WAYANG POERWÅ,

VOOR DEN DRUK BEZORGD DOOR

CH. TE MECHELEN,

MET EEN VOORREDE VAN

Professor H. KERN.

1e DEEL.

[illegible]

VOORREDE.

Sedert de overtuiging meer algemeen is geworden dat de te lang geminachte Wayangliteratuur in belangrijkheid bij geen ander gedeelte der Javaansche letterkunde achterstaat, is er binnen een betrekkelijk kort tijdsverloop veel verdienstelijks, zoowel in Indië als hier te lande, geleverd. Onder de tekstuitgaven nemen de „Drie-en-twintig schetsen van Wayang-stukken (Lakons)" wier bewerking wij aan den Heer te Mechelen te danken hebben, de voornaamste plaats in. De heer Humme bezorgde eene uitgave van 't uitgewerkte Wayang-stuk Abiyasa, benevens vertaling. Van de hand van Dr. van der Vliet verscheen eene vertaling van het door wijlen Professor T. Roorda uitgegeven stuk Pandu, nadat van den Palasara, insgelijks door Roorda uitgegeven, reeds vroeger eene gedeeltelijke vertolking geleverd was door den heer Poensen. Van groote waarde voor de studie der Wayangs zijn ook de opmerkingen van Dr. van der Tuuk over de Maleische omwerkingen van oudere Javaansche stukken.

Waar zooveel blijken zijn gegeven van belangstelling, schijnt het overbodig een uitvoerig betoog te leveren dat de studie der eigenaardige Javaansche tooneelliteratuur waarde heeft, niet alleen voor geleerden, maar ook voor anderen die het karakter, de denkbeelden en zeden van den Javaan wenschen te leeren kennen. Men zal van mij, die bij meer dan één gelegenheid mijn gevoelen over de waarde der Wayangs te kennen gegeven heb, niet eischen dat ik het eenmaal gezegde herhale; er iets nieuws aan toevoegen kan ik niet; alleen mag ik niet

verzwijgen dat ik met levendige vreugde deze uitgave van stukken begroet, waarmede èn het Bataviaasch Genootschap èn de Heer te Mechelen de beoefenaars van 't Javaansch op nieuw aan zich verplicht hebben. Aan het door den laatste tot mij gerichte verzoek om een woord van inleiding bij dezen bundel te voegen heb ik mij daarom niet willen onttrekken.

De drie stukken die hier worden uitgegeven om later gevolgd te worden door nog drie andere, waarvan de bewerking aan mijn ambtgenoot Vreede is toevertrouwd, komen wat den inhoud betreft overeen met de korte Lakons welke onder den titel van *Sĕmar djantur*, *Djaladara rabi* en *Alapalapan Surti-kanṭi* de nommers 13—15 van de bovenvermelde „Drie-en-twintig schetsen" uitmaken. Het eerste stuk heeft hier een anderen naam, *Karta-wiyoga*, naar den zoôn van den vorst der Yaksha's Kuroṇḍa-gĕni. De rol die deze Kartawiyoga speelt als schaker van prinses Erawati, dochter van Çalya, koning der Mâdraka's (Monda-raka) is dezelfde als die van Mandradjit, zoon van een Dânawa-vorst. Den titel van *Sĕmar djantur*, Sĕmar's goochelarij, heeft de Lakon te danken aan een kluchtig tooneel, waar Sĕmar, ten einde voedsel te krijgen voor zijnen heer, den van honger uitgeputten Ardjuna, goocheltoeren verricht, waarvan door de domheid zijner twee zoons en zijne eigen onhandigheid weinig terecht komt. Vermoedelijk heeft dat tooneel den toeschouwers zóó behaagd, dat het gansche stuk gewoonlijk daarnaar genoemd werd. Moeielijker te verklaren is het, waaraan de onbeteekenende persoon van den laffen schaker van Erawati het te danken heeft dat het stuk naar hem genoemd is.

Wanneer men de uitgewerkte stukken met de kortere Lakons vergelijkt, ziet men dat ondanks het verschil van eenige eigennamen het beloop der handeling hetzelfde is, ook al is hier en daar de volgorde der tooneelen eene andere. Niettemin kan men uit de verschillen, hoe gering ze ook zijn, veilig opmaken dat de Pakĕms welke de Dalang van den Karta-Wiyoga, enz. gevolgd heeft eene andere redactie bevatten dan die wij in de Lakons aantreffen. Taal en stijl der uitgewerkte stukken is klaarblijkelijk jonger dan die der Lakons, doch daaruit kan men niets met zekerheid opmaken omtrent den betrekkelijken ouderdom der twee redacties, omdat de nieuwere tint van 't geheel in de Wayangs een gevolg kan wezen van de vrijheden die elke Dalang zich veroorloven mag. Ook hij moet eenigermate met zijn tijd medegaan. Ook de Javaansche maatschappij is aan de

wet der veranderlijkheid onderworpen, even als de onze, hoewel in minderen graad of althans op andere wijze. Nergens kan men het oude en het nieuwe zoo naief met elkander verbonden zien als juist in de Wayangs. Terwijl ge op het eene oogenblik de goden en halfgoden der Indische mythologie ziet verschijnen, hoort gij op 't andere spreken van „de njai's van gepasporteerde flankeurs"; nu eens verneemt ge de klanken van een strofe uit een of ander Kawigedicht, dan weêr hoort ge een minziek maagdelijn en haren uitverkorene spreken in Hollandsch-Maleisch. Ook al wist men niet van elders dat Indiërs en Hollanders invloed op de Javaansche beschaving hebben uitgeoefend, dan zou men het kunnen leeren uit de volgende woordenwisseling tusschen de schoone, maar lichtzinnige Banuwati en den edelmoedigen, maar Don-Juanachtigen Ardjuna, of zooals hij vaak genoemd wordt, Pamade. Op bl. 94 van den bundel leest men hoe Banuwati om den jonkman te lokken hem „werda" toeroept:

„Pamade, Pamade urdah! sapa itu orang malĕm dan sondĕr-bawak tali-api?"

Waarop Ardjuna antwoordt:

»Kakang bok, prin; kita orang patrolli. Itu orang prampuwan tĕrlalu nakal; malĕm malĕm kalut(?) di atas tembok nyang tĕrlalu tinggi; nanti djatuh, mas."

Het gebruik van Maleische volzinnen moet klaarblijkelijk strekken om aan de teekening van sommige typen eene meer realistische tint te geven. Niet hetzelfde kan men beweren van de verzen uit de Oudjavaansche gedichten getrokken, de zoogenaamde Suluks, waarvan in deze drie Wayangstukken veel kwistiger gebruik wordt gemaakt dan in de tot nog toe bekende. Verscheidene van die Suluks worden meermalen herhaald, zoodat de voorraad waarover de Dalang te beschikken had zeer beperkt was. De inhoud dier verzen staat niet in 't minste verband met hetgeen in het stuk onmiddellijk volgt; slechts zelden komt er een naam in voor van een persoon die ook in de Wayang eene rol speelt, bijv. Ardjuna. Uit alles is duidelijk dat de Dalang van den inhoud der verzen zoo goed als niets begrijpt en van de maat waarin ze opgesteld zijn slechts zelden het rechte weet. Het is dan ook overbodig te zeggen dat de tekst van die verzen zonder onderscheid veel te wenschen overlaat.

De meeste dezer Suluks zijn ontleend aan 't Oudjavaansche Bhârata-Yuddha; sommige aan 't Râmâyana; een paar zijn er bij, die ik niet kan terecht brengen. Om een denkbeeld te geven hoe die verzen geleden hebben zal ik ter vergelijking

eenige er van laten volgen, zooals ze in twee door mij gebruikte handschriften van het Bhârata-Yuddha voorkomen.

De strofe die op bl. 4 dezer uitgave voorkomt en verkeerdelijk als in Çikhariṇî-maat heet opgesteld te zijn, terwijl het in Pṛthwî-maat is, luidt in 't handschrift aldus:

> lĕngöng gati nikang hawan sabhasabhân iking Hâstina
> samantara tĕkeng tĕgal Kuru narâryya Kṛshṇâ'n laku
> sirang Paraçurâma Kaṇwa Janakâdulur Nârada
> kapanggih irikang tĕgal milu ri kâryya sang bhûpati.

De verzen die bl. 15 voorkomen worden ettelijke malen herhaald, o. a. bl. 64, 81 en 299, zoodat ze, men weet niet waarom, zich in eene zekere populariteit verheugen en tot de meest bekende schijnen te behooren, hetgeen men ook mag opmaken uit het feit dat dezelfde strofe in de Zamenspraken van Winter als proeve wordt medegedeeld. Even als zoo straks is de maat Pṛthwî, niet Çikhariṇî [1]. De strofe is 122 van het Bhârata-Yuddha:

> mulat mara sang Arjjunâsĕmu kamânushan kâsrĕpan
> ri tingkah i musuh nirâ'n paḍa kadang taya wwang waneh
> hana wwang anak ing yayah mwang ibu len uwânggĕh paman
> makâdi nṛpa Çalya Bhîshma sira sang dwijânggĕh guru.

De Suluk op bl. 31, herhaald bl. 46, enz. komt overeen met strofe 47 B. Y. in de maat Çârdûla-wikrîḍita gelijk de Dalang — en ditmaal te recht — opgeeft:

> lĕnglĕng ramya nikang çaçângka kumĕñar mwang rĕngga rûm ning purî
> mangken tanpa-siring halĕp nikang umah mâs lwir murûb ing langit
> tĕkwan sarwwa-maṇik tawing-nya sinawung sâkshât sĕkar ning suji
> unggwan Bhânumatî [2] yan amrĕm alangö mwang nâtha Duryyodhana.

Op bl. 48 ontmoeten we strofe 255 B. Y. in Açwalalita-maat:

> atha ri pĕjah ni sang prawara Somadattatanayan tĕkap Çinisuta
> makin aparö Jayadratha tĕkap sang Arjjuna Wṛkodarângarak amuk

1) De oorzaak der verwarring ligt daarin dat het aantal lettergrepen in beide maten even groot is.
2) Een andere lezing heeft Bhânuwatî.

irika sa-Korawângrĕbut angĕmbul ing çaraware sang Arjjuna 'n anasö makamuka sang dwijendra Kṛpa Çalya Karṇṇa Guruputra len Kurukula.

Aan de strofe op bl. 63, waarvan de maat eene varieteit van Kṛti is, beantwoordt st. 56 B. Y., aldus luidende:

meh rahinâsĕmu bâng hyang Aruṇa kadi netra ning ogha rapû
çabda ni kokila ring kanigara sakĕtĕr ni kidung ning akûng
lwir wuwus ing winipañca papĕtak ing ayam wanà ring pagagan
mrâk anguwuh bhramarângrabhasa kusuma ring parahasyan arûm.

In plaats van ons te verwonderen dat de Dalang de verzen slechts in gebrekkigen vorm kent, moeten wij het waardeeren dat hij op zijne wijze de oude taal van Java in eere houdt, en behooren wij ons zelven te verwijten dat er door onze vaderlandsche geleerden, hetzij in Indië of hier te lande, zoo luttel gedaan is om de kennis der Oudjavaansche letterkunde te bevorderen. Doch laat ik niet verder hierover uitweiden en liever terugkeeren tot de Wayang.

De drie tooneelstukken die in dit deel zijn afgedrukt, staan met elkaar in 't nauwste verband. De hoofdhandeling in het tweede is slechts eene voortzetting van die in 't eerste, zoodat beide een geheel vormen. Het derde stuk is niet zoo nauw met de vorige verbonden, maar de personen die er in voorkomen zijn toch grootendeels dezelfde; slechts één nieuw voornaam personage treedt op en hetgeen hij verricht is de schakel welke de Alapalapan Surti-kaṇṭi met het nog niet verschenen volgende stuk verbindt.

Omtrent de personen die ten tooneele gevoerd worden vindt men de voornaamste gegevens in Cohen Stuart's register op zijne uitgave van 't Brata-Yuda en in te Mechelen's lijst achter den tekst der door hem uitgegeven Drie-en-twintig Schetsen. Met behulp van die twee registers en de opgaven aangaande de personen uit het Mahâ-Bhârata, zooals die te vinden zijn in het groote Sanskritwoordenboek van Böhtlingk en Roth, zou men thans reeds eene vrij volledige persoonsbeschrijving der goden, helden, enz. uit de Wayangs van den Bhârata-cyclus kunnen samenstellen. Voor de verklaring van de soms zeer zonderlinge verbasteringen van Indische namen en van het ontstaan van eigennamen door misverstand is nog weinig gedaan, maar toch leveren de opstellen van Dr. van

der Tuuk over de Maleische omwerkingen van oude Lakons daarvoor menige nuttige bijdrage; zoodat eene verzameling van al hetgeen nu bekend is, verre van onbelangrijk zou wezen.

Allen die het wel meenen met de studie van 't Javaansch zullen zeker met mij wenschen dat deze nieuwe uitgave van het Bataviaasch Genootschap bijval moge vinden, zoowel bij Javanen als bij Europeanen, en de belangstelling wekken van 't geleerde publiek.

H. KERN.
